

**IT'S TIME FOR SMART CARGO:  
REAL-TIME, IN-TRANSIT SECURITY**

# **GET 24/7 FREIGHT SECURITY. ANYWHERE. ANYTIME.**

When it comes to protecting your cargo, you shouldn't need to choose between overpriced security escorts or unreliable protective seals. Placing a sensor directly on your cargo gets you access to instant, cost-effective, and real-time security monitoring.

Our technology is backed by a Command Center staffed by a team of logistics professionals with diverse military, law enforcement, insurance, and security backgrounds. Our team monitors shipments around the clock, 365 days a year, and will intervene on your behalf to protect your cargo.

- Actively monitor the location and security of your freight from any location on one easy-to-use platform.
- Receive real-time alerts whenever your cargo is threatened.
- Decrease losses due to damage and theft.
- Gain access to local and global assistance from our 300 offices worldwide.
- Avoid high risk zones.

GET 24/7 FREIGHT SECURITY. ANYWHERE. ANYTIME.

## DON'T TAKE CHANCES WHEN PROTECTING YOUR FREIGHT.
